**Subject:** RE: Slide: chronological basis for current pub health perspective

Dear colleagues,

Please check below for the "note" in the powerpoint in case you could not read it. I corrected one typo, tho'.

Best regards,  
Kohji

Dear Kohji: The slide looks OK, but I could not print out the references & they are too small to read on the screen.

Dear colleagues,

Attached please find the remaining slide needed to be completed. This is the slide #9, which follows the one with the precept No. 2 of the IOM report "nicotine is addictive."

Please check whether or not the citations are in line with our thoughts, and let me have your comments relatively quickly.

The details of the citations are in "notes".

Best regards,

Kohji
